A high school experience. A head start on your future.

Thank you for your interest in BridgePoint! We are building a small school where students are known, supported, and challenged to connect their learning to a meaningful future in health professions.

START WITH CURIOSITY. BUILD A PATH.

Our first class will begin with ninth graders in fall 2027. We will add one grade each year. Students experience health careers while building academic, personal, and professional skills. Our campus will be less than a block from CMU.
